# INV-Lite

*Elegant. Ergonomic. Balanced.*

# INV-Lite

ELEGANT. ERGONOMIC. BALANCED.

The INV-Lite is the new addition to the Rycote® InVision range of boom shock mounts. It has been specifically designed for popular lightweight, short-shotgun microphones, for indoor boom pole recordings. The unique 'cam-lever' design grips the mic at its rear without covering the interference tube slots, allowing for easy use of a foam windscreen.

## Features

- Designed specifically for shorter, lighter shotgun mics for interior booming;
- Unique cam-lever clamp design allows super-fast mic access;
- Microphone held at rear, keeping interference tube slots free of obstructions;
- Patented Lyre® technology with new 'wide' Lyre design allows attachment of foam slip-on solutions;
- Rod weight distribution system offers superb balance across entire suspension;
- Robust, reliable Rycote quality;
- Weighs just 112g\* (without brass screw adaptor).

\*Weights & dimensions approximate

# InVision®

Rycote InVision products are designed for discreet, low-profile boom mounted use in environments where full basket windshielding is not required. InVision - professional isolation using patented Lyre® suspension systems for industry-leading shock & handling isolation.

**With its unique 'cam-lever' design the INV-Lite allows for fast mic access and easy use of a slip-on foam to provide basic wind & plosive protection indoors.**

## Compatibility

Available in two variants: INV-Lite 19 & INV-Lite 21, accommodating 19mm & 21mm diameter short shotgun mics, respectively.

### INV-Lite 19 (041136)

Suitable for mics of 19mm diameter, up to 210mm in length, weighing no more than 120 grams.

- DPA 4017B, 4017C; 4018
- Sanken CS-1e
- Sennheiser MKH 8060, 8050, 8040, 8020.

### INV-Lite 21 (041135)

Suitable for mics of 21mm diameter, up to 210mm in length weighing no more than 120 grams.

- Schoeps MiniCMIT
